Rules for Construction

Understanding the Future Continuous Tense

Basic Structure

The future continuous tense is formed using the structure: **subject + will be + verb-ing**. This rule enables clear expression of ongoing actions at a specific future time.

Time Expressions

Common time expressions like “at 5 PM tomorrow” and “this time next week” help indicate when the action will take place, enhancing clarity in communication.

Consistency in Usage

It's essential to maintain consistency when using this tense. Remember to apply the correct structure to avoid confusion in your sentences about future ongoing actions.

Understanding Simple Future vs. Future Continuous

Many learners confuse the **simple future** with the future continuous tense.

Remember, the future continuous describes actions in progress at a specific future time, enhancing clarity in communication.

Common mistakes

One common error is incorrectly placing the auxiliary verb in a sentence. This can lead to confusion. Remember, the structure must always follow: subject + will be + verb-ing for clarity!

Other common error is forgetting to add the -**ing** form of the main verb. This oversight can lead to confusion. Always remember to use the correct verb form to convey ongoing actions clearly.

Let's practice

Conjugate the next verb in future continuous.
